The *Training and Implementation Guide* will be offered for sale in paper for $40 per copy or on CD-ROM for $50 per copy. Information contained in the Training and Implementation Guide is also available at no cost on the PTO's Web site at **www.uspto.gov.**

A Notice of Proposed Rulemaking entitled "1996 Changes to Patent Practice and Procedure" was published in the Federal Register at 61 Fed. Reg. 49819 (September 23, 1996), and in the Official Gazette at 1191 Off. Gaz. Pat. Office 105 (October 22, 1996). A Final Rule (entitled "Changes to Patent Practice and Procedure") adopting a number of changes proposed in the Notice of Proposed Rulemaking has been published in the Federal Register and the Official Gazette. The changes made by the Final Rule became effective on December 1, 1997.

Among the changes to the rules of practice included in the Final Rule are:

2) Simplified requirements for oaths or declarations in reissue applications;

3) Simplified requirements for establishing lack of deceptive intent in petition practice, and in the filing of papers correcting improperly asserted small entity status;

4) Elimination of unnecessary requirements, such as certain types of petitions to correct inventorship under 37 C.F.R. § 1.48(a);

5) Changes in appeal practice, such as limitations on new grounds of rejection and increased admissibility of reply briefs;

6) New time frames for replies to Office actions, and for the revival of abandoned applications, and simplification of petitions for an extension of time;

7) Changes in the manner of naming inventors, for correction of inventorship errors, and for establishing small entity status in continuing and reissue applications; and

8) Provisions for multiple prior art protests by a single party.

The Training and Implementation Guide will contain:

1) The text of the entire Final Rule as published in the Federal Register, which includes the revised rule language, the preamble portion explaining the revisions, and an Index to the Final Rule;

2) A rule-by-rule summary and three by-topic summaries (four summaries in total), the three by-topic summaries including a two-page highlights of the significant revisions, a condensed summary of the significant revisions, and a detailed summary of the revisions;

3) Selected revised forms for filing applications;

4) An extensive set of Questions and Answers;

5) Copies of presentation slides developed for examiner training sessions, including slides comparing the old and new requirements for filing applications; and

6) A section on amendments in reissues and reexaminations.

Reference Collections of U.S. Patents and Trademarks Available for Public Use in Patent and Trademark Depository Libraries

The following libraries, designated as Patent and Trademark Depository Libraries (PTDLs), receive patent and trademark information from the U.S. Patent and Trademark Office. Many PTDLs have on file patents issued since 1790, trademarks published since 1872, and select collections of foreign patents. All PTDLs receive both the patent and trademark sections of the *Official Gazette of the U.S. Patent and Trademark Office* and numerical sets of patents in a variety of formats. Patent and trademark search systems in the Cassis CD-ROM series are available at all PTDLs to increase access to that information. It is through the CD-ROM systems and other depository materials that preliminary patent and trademark searches may be conducted through the numerically arranged collections.

Each PTDL offers reference publications which outline and provide access to the patent and trademark classification systems, as well as other documents and publications which supplement the basic search tools. PTDLs provide technical staff assistance in using all materials.

All information is available for use by the public free of charge. However, there may be charges associated with the use of on-line systems, photocopying and related services.

Since there are variations in the scope of patent and trademark collections among the PTDLs, and their hours of service to the public vary, anyone contemplating use of these collections at a particular library is urged to contact that library in advance about its collections, services, and hours in order to avert possible inconvenience.

Partnership PTDLs provide enhanced and expanded services for which fees are charged. They offer on-line patent text and image searching, on-line trademark searching, and videoconferencing for examiner interviews and workshops. They accept disclosure documents on site, order file wrappers, assignment documents and certified copies for their customers, and host a variety of seminars aimed at specific audiences, including practitioners, paralegals, and independent inventors. Currently, partnerships are located at the Great Lakes Patent and Trademark Center (GLPTC) at the Detroit Public Library in Detroit, Michigan and the Sunnyvale Center for Innovation, Invention and Ideas (SCI^3) in Sunnyvale, California.

*A communication from the examiner should have been received in most applications filed prior to this date.

Patents will Expire as Follows:
(1) The term of any utility or plant patent that is in force on or results from an application filed before June 8, 1995 is the greater of the 20 year term provided in 35 U.S.C. 154(a)(2) or 17 years from grant subject to any terminal disclaimers. 35 U.S.C. 154(c)(1).
(2) All utility and plant patents granted on applications having an actual United States filing date on or after June 8, 1995 are granted for a term which begins on the date on which the patent is granted and ends 20 years from the date on which the application was filed in the United States. If the application contains a specific reference to an earlier application under 35 U.S.C. 120, 121 or 365(c), the patent term ends twenty years from that date on which the earliest application was filed. 35 U.S.C. 154(a)(2).
(3) All design patents are granted for a term of 14 years from the date of the grant.
However, the term of any patent may have been curtailed by disclaimer under the provisions of 35 U.S.C. 153, have lapsed due to failure to pay maintenance fees, or have been extended under the provisions of 35 U.S.C. 154, 155, or 156. Thus, if more reliable information is needed with respect to a particular patent, then the specific patent file should be reviewed to determine the actual date of patent expiration.

SECTION 1.—INTERNATIONAL CLASSIFICATION

The short titles associated below with the international class numbers are terms designed merely for quick identification and are not an official part of the international classification. The full names of international classes are given in section 6.1 of the trademark rules of practice.

The designation "U.S. Cl." appearing in this section refers to the U.S. class in effect prior to Sep. 1, 1973 rather than the international class which applies to applications filed on or after that date. For adoption of international classification see notice in the OFFICIAL GAZETTE of Jun. 26, 1973 (911 O.G. TM 210).

SECTION 2.—INTERNATIONAL CLASSIFICATION

The short titles associated below with the international class numbers are terms designed merely for quick identification and are not an official part of the international classification. The full names of international classes are given in section 6.1 of the trademark rules of practice.

The designation "U.S. Cl." appearing in this section refers to the U.S. class in effect prior to Sep. 1, 1973 rather than the international class which applies to applications filed on or after that date. For adoption of international classification see notice in the OFFICIAL GAZETTE of Jun. 26, 1973 (911 O.G. TM 210).

SECTION 1.—INTERNATIONAL CLASSIFICATION

The short titles associated below with the international class numbers are terms designed merely for quick identification and are not an official part of the international classification. The full names of international classes are given in section 6.1 of the trademark rules of practice.

SECTION 2.—INTERNATIONAL CLASSIFICATION

The short titles associated below with the international class numbers are terms designed merely for quick identification and are not an official part of the international classification. The full names of international classes are given in section 6.1 of the trademark rules of practice.

The designation "U.S. Cl." appearing in this section refers to the U.S. class in effect prior to Sep. 1, 1973 rather than the international class which applies to applications filed on or after that date. For adoption of international classification see notice in the OFFICIAL GAZETTE of Jun. 26, 1973 (911 O.G. TM 210).

The designation "U.S. Cl." appearing in this section refers to the U.S. class in effect prior to Sep. 1, 1973 rather than the international class which applies to applications filed on or after that date.
